Art Unit: 1714

In the light of the applicant's amendment and arguments, filed on 1/12/2004 the prior art rejections are hereby overcome. The application however, is not in condition for allowance, due two new matter issue incorporated into the present claims as well as 112 issue in the newly added claims.

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 6, 7, 9-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims of the present invention have been amended to read on R1 substituent having C2-C36 carbon atoms, instead of previous limitation of C1-C36. Per MPEP, when dealing with amendment to limitations of numerical ranges, the applicants have to have explicit recitation of that limitation in the specification. The examiner of record found support for C1 as originally presented as well as mercaptopropionic acid (C3) mercaptobenzoic acid (C4) or

Art Unit: 1714

mercaptoundecanoic acid (C11). However, there is no explicit limitation of the mercaptocarboxyl compound having 2 carbon atoms.

### *Claim Objections*

3. Claim 12 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

In the instant case, the applicants added two claims where the carboxyl mercaptan compound is 3-mercaptopropionic acid, mercaptobutyric acid, 2-mercaptosuccinic acid and 4-mercaptobenzoic acid. This claim depends on claim 11 and if further fails to narrow down the limitation of claim 11, since some of the carboxymercaptans of claim 12 are not in claim 11. In addition, where claim 11 reads on 4-mercaptobutyric acid, claim 12 simply states mercaptobutyric acid, thereby further allowing other variations of this acid.

The prior art of record has been withdrawn for the following reasons.

The prior art of WITTE although teaches use of carboxymercaptan compounds to modify the rubber, it does not teach the glass transition temperature. After careful reconsideration of the prior disclosure, it is not clear if the modification with acid would change the Tg to a greater extent than the alcohol. Further experimentation would be required as the effects of sterics are

Art Unit: 1714

no clear. Any allegation that the Tg would be similar or encompass the present invention would be considered improper hindsight.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
